\* Indian billionaire business magnate, the Founder and former CEO of Zoho Corporation, living a simple, unsophisticated life in a rural setting in a remote village in Tamil Nadu in India, wherefrom he runs his Multinational Company, has transformed the lives of rural and village folks by bringing the benefits of education in general and Information and Communication Technology (ICT) education in particular to the villagers and the masses, drawing inspiration from Swami Vivekananda, as he reflects: "This profound wisdom from Swami Vivekananda [quoted below] is an enduring inspiration. That's my resolution for this year and this decade."  
"I consider that the great national sin is the neglect of the masses, and that is one of the causes of our downfall. No amount of politics would be of any avail until the masses in India are once more well educated, well fed, and well cared for... If we want to regenerate India, we must work for them." (Swami Vivekananda)
